

# TAUQEER AHMED

## Full Stack Flutter Developer

Karachi, Pakistan | +92 311 2648420 | tauqeer745@outlook.com

### PROFESSIONAL SUMMARY

---

Full Stack Flutter Developer with a strong foundation in native Android development and hands-on experience building responsive, high-performance cross-platform applications. Skilled in both frontend and backend development, with a focus on clean architecture, scalable APIs, and seamless UI/UX. Passionate about delivering innovative, user-centric mobile solutions with robust server-side integration. Seeking to contribute to dynamic teams by bridging mobile interfaces with powerful backend systems.

### SKILLS

---

Flutter • Dart • Go • Android • Java • Firebase • Git • REST APIs • CI/CD

### PROFESSIONAL EXPERIENCE

---

#### Senior Associate Flutter

April 2025 – Present

*Tafsol Technologies*

*Karachi, Pakistan*

- Collaborated with the team lead to implement features and maintain high-quality cross-platform mobile applications.
- Focused on delivering scalable, maintainable, and performance-optimized Flutter code within a collaborative team environment.
- Mentored junior developers and interns, ensuring adherence to Flutter best practices and clean architecture.

#### Flutter Developer

January 2022 – April 2025

*EuSopht*

*Karachi, Pakistan*

- Joined as a Junior Flutter Developer and progressed to taking on senior-level responsibilities.
- Led codebase refactoring efforts, transforming legacy/spaghetti code into maintainable architecture using the BLoC pattern.
- Mentored interns and juniors, promoting best practices and clean code standards across the team.

### PROJECTS

---

#### OrganAise

*EuSopht*

- An event management application.
- Backend built with Firebase for Authentication, Firestore, and Functions.
- Events exported and fetched from Google, Outlook, and Apple Calendar.

#### Wajba

*Tafsol Technologies*

- A food wastage management application.
- Used Firebase Authentication for Google and Apple Auth.
- Integrated APIs across the application using GetX state management.

#### MensaPay

*EuSopht*

- A prepaid wallet for Mensa-issued prepaid cardholders.
- Designed and developed the application from scratch, integrating APIs using Riverpod state management.

### EDUCATION

---

#### Bachelor's Degree, Software Engineering

October 2017 – October 2021

*MUET, Jamshoro*

*Pakistan*

- Graduated with a 3.76 CGPA; demonstrated strong analytical and problem-solving skills across core engineering coursework.
